

## DPLF360 Series 360nm Low Noise DPSS Laser System up to 50mW

### Overview

The DPLF360 series low noise diode pumped solid state (DPSS) laser is ideal for applications that require a wavelength of 360nm and output power levels up to 50mW. The laser features low noise, TEM<sub>00</sub> transverse mode, long lifetime, easy operating, and FDA-compliant system with driver. The laser is widely used in measurement, spectrum analysis as substitute for He-Ne lasers.
